Synergy Creations
1 Church Road
Elkview WV 25071

All items and prices on this form are for single user licenses. This means with one single user registration you can use the software on your laptop and home computer, as long as the use is not simultaneous. If you need to use the software simultaneously on multiple computers, you must buy a license for each computer (or perhaps a site license). A separate order form is available on our website for site license purchases. This order form is for customers in the United States who are **paying via check or money order only**. For other nations and for other payment options, such as credit card payments and fast, secure online ordering, visit:

www.synergycreations.com/order.html

Your receipt and product registration information will be delivered to you via email, unless you request a postal receipt. Be certain your email address and/or postal address is correct and legible; **we do not send postal receipts unless requested**. Postal receipts are \$1. Product registration codes are issued when checks clear. Checks should be drawn in U.S. Dollars from a U.S. bank.

Thank you again for your purchase from Synergy Creations!
